EDUCATION

B.Tech in Computer Science and Engineering (Cybersecurity)— GITAM University, Visakhapatnam

Expected 2028

Current CGPA: 8.74 / 10.0

Bhashyam Junior College Guntur, India

Class XII, SSE (96.40%) 2022 – 2024

Bhashyam Blooms Guntur, India

Class X, CBSE (91.80%) 2021-2022

Relevant Coursework: Operating Systems, DBMS, OOP, Data Structures, Design and Analysis of Algorithms, Computer Organization & Architecture, Digital Logic Circuits, Computer Networks, Cybersecurity, Cryptography

TECHNICAL SKILLS

Languages: Python, C, Java

Concepts: Object-Oriented Programming, Data Structures & Algorithms, Database management systems

Tools: Oracle SQL, VS Code, Wireshark, Cisco Packet Tracer, Jira, Burp Suite

Networking: TCP/IP, DNS, HTTP, IPv4/IPv6, VLANs, Network Traffic Analysis

Cybersecurity: Web Application Security, VAPT, OWASP Top 10, Vulnerability Assessment, Cryptography

Operating Systems: Linux (Kali)

INTERNSHIP EXPERIENCE

VAPT Intern | Mich Josh Cybersecurity

May 2026 – June 2026

- Performed hands-on web application security testing through **PortSwigger Web Security Academy labs**, focusing on identifying and testing common web vulnerabilities.
- Worked with **Burp Suite** to intercept, analyze, and modify HTTP requests while investigating vulnerabilities such as **SSRF, Path Traversal, Information Disclosure, and Version Control History**.
- Practiced vulnerability assessment and penetration testing methodologies by analyzing application behavior, identifying attack vectors, and documenting findings.

PROJECTS

Event Management System | Python, MySQL

- Co-Developed a full-stack event management application with a frontend interface and MySQL backend
- Designed a normalized relational database schema to manage events, attendees, and bookings
- Wrote SQL queries for data retrieval, insertion, and reporting; integrated backend logic with the frontend interface

Smart Vacuum Cleaner Robot | Arduino, C++, DC Motors

- Co-designed and built a vacuum robot with **ultrasonic-based obstacle detection and autonomous avoidance**.
- Programmed **Arduino-based motor control** and contributed to circuit design, sensor integration, and hardware assembly.

Gamified Learning Platform for Rural Education (EDUPLAY) | Smart India Hackathon 2025

- Co-developed an interactive web platform using HTML5 and client-side scripting with game-based learning features for rural education.
- Contributed to browser-based simulations and prototype development focused on student engagement.

Auditorium Seat Booking System | C, Java, Data Structures

- Co-developed a digital auditorium booking system using C and Java, applying arrays, traversal, insertion, deletion, and linear search.
- Implemented seat allocation, availability tracking, booking validation, and digital ticket generation.

CERTIFICATIONS

- Jira Certification — Coursera

EXTRACURRICULAR ACTIVITIES

Member, Entrepreneurship Club — GITAM University

2025 –2026

- Participated in entrepreneurship events, workshops, and idea-pitching sessions
